## WORK EXPERIENCE

### Freelancer

The Brown Box 2024-present

Currently working for The Brown Box as a freelancer. In present doing the graphic designing, video shooting and video editing.

### Academic Project

CNC Shield Automatic Writing Machine present

I am working on an academic project called the CNC Shield Automatic Writing Machine, where I design and program the system using [specific programming languages, e.g., Arduino, C++]. I collaborate with my team to assemble hardware components and ensure the machine operates with high precision. I also conduct testing and document the results, presenting the project to faculty and technical fair of our institute
